

This submission is in response to your inquiry dated March 21, 2007.

The two issues which you inquired about related to the 2006 Year end Report.

Per my conversation on April 19 with my advisor, there was a problem with the "calendar year to date" and "total this period" amounts.

These were input mistakes are being changed and will reflect in the amended report.

Also, we want to provide clarification re: "fundraising commission for 2006 receipts". This expenditure is a commission for the PAC's fundraiser based upon annual performance for fundraising for MBE PAC only. This is in no way related to expenditures for a federal candidate or campaign and is a pure operating expense.
